** “Resident Projects” should identify resident driven study as the PI on the UTSW IRB application, the study protocol, the consent form and other documents – along with a Faculty Sponsor from the Department

Note: When a subaward agreement is required, Parkland and UTSW will enter into a separate sub-recipient agreement for the study.

Note: If new services are added that do not have a set fee on this RFS, the Parties will work in good faith to negotiate a fee, but Parkland will not be obligated to provide those services until the Parties agree on a fee.
